Beginning school year:

2023

Ending school year:

2024

When running the report, the "beginning school year" should be the calendar year of that spring. (For example, if the first year of teaching/counseling/leadership was Fall 2020 and Spring 2021, then the "beginning school year" for that report would be 2021. If you are running the report for that year of first-year teachers/counselors/principals only, choose the "ending school year" as 2021 as well.)

58. What has been the most difficult classroom challenge you have faced when striving to meet the needs of students?		
Students unable to be held accountable for their actions	2023	45188
Staying ahead on assignments and plans for the week.	2023	45332
Classroom Management	2023	45435
Classroom behavior management, especially with technology.	2023	45487
Students constantly being pulled out for field trips, sports, testing	2023	45694
Supporting but not enabling behavior needs while simultaneously providing instruction	2023	45762
The most challenging thing has been the large amount of students below grade level. It is very difficult to differentiate instruction for half of the class, and it is frustrating when students are unable to perform and complete grade level assignments because they are missing foundational skills from the year prior.	2023	45909
Diverse behavior needs in wake of covid pandemic	2023	46022
classroom management	2023	46046
Disciplining students with behavioral problems to benefit the learning of the rest of class, but still trying to give those students chances to be successful. I don't always feel supported by admin.	2023	46110
I have a couple of students that do not follow redirections and will throw items in the classroom. If I redirect or express the desired behavior with the classroom rule and procedure.	2023	46260
successful transitions	2023	46365
Lack of support from administration	2023	46372
Students and parents just don't care anymore. Admin doesn't care. Nobody cares about the teachers and that is why Missouri is losing teachers at an alarming rate. Behaviors are out of control. Support is at an all time low. Admin cares most about test scores.	2023	46373
Reaching every student in classes with major behavioral issues in general it makes it extremely difficult to work in small groups or one-on-one when there's students who you can't move away from or take your eyes off.	2023	46466
Student's disruptive behaviors.	2023	46585
The demands and newness of the math curriculum. It is new to the district so I did not have anyone with experience to help with instruction.	2023	46626

59. What is the single most important area that teacher preparation programs should strengthen?		
Go by subject	2023	45188
Tailoring information more to secondary teachers, a lot of instruction seems to be effective but really only benefits the early ed.	2023	45332
The discipline structure and steps for natural consequences in the classroom.	2023	45435
Teaching your content specifically. A lot of the preparation was general teaching practices, but I feel like I was never trained to actual teach students my content.	2023	45487
Classroom management, how to make math not boring or the same every single day	2023	45694
Behavior needs	2023	45762
Classroom/teacher organization - I wish we would have learned more about all of the things we need as a teacher. I have struggled all year with getting myself organized and keeping my classroom organized and I waste a lot of time finding things because I never learned how to stay organized. It takes a lot of time, but if teacher preparation programs addressed this I would have had an easier time getting set up at the beginning of the school year.	2023	45909
Classroom management strategies (building teachers tool belts) conscious discipline strategies	2023	46022
assessments for lower grades such as pre-k and classroom management	2023	46046
