University of Missouri-Kansas City Report

Survey:

- ☒ [Teacher](#)
☐ Principal's Supervisor
☐ Principal
 ☐ Counselor's Supervisor
☐ Counselor
 ☐ Superintendent
☐ Teacher's Principal

Beginning school year:

2019

Ending school year:

2023

When running the report, the "beginning school year" should be the calendar year of that spring. (For example, if the first year of teaching/counseling/leadership was Fall 2020 and Spring 2021, then the "beginning school year" for that report would be 2021. If you are running the report for that year of first-year teachers/counselors/principals only, choose the "ending school year" as 2021 as well.)

☒ [Include Open-Ended Questions](#)

Note: Questions 51-57 in the teacher survey replaced questions 44-50 in 2023, so data for questions 44-50 reflect survey results from 2015-2022 and data for questions 51-57 only reflect 2023-2024 survey results. Questions 39a, 39b, and 39c were added in 2024, so data for those questions only reflect survey results from 2024.

I work in a large urban district and have a very diverse group of students ranging from ELL, SPED, students who have significant behavior problems, come from homeless backgrounds, etc. being able to manage all of these things in my classroom while effectively teaching and planning for all the learning experiences that come with this was not something that was taught. My first quarter with my students was rough and I was not seeing a lot of progress until I attended PD's and researched on my own to find effective ways to teach these students. After this work, my students and I made lots of progress in the classroom.	2019	25810

Supporting ELL students - I think that is more in lacking resources than anything.	2020	31388
Having no time for collaboration with the other teachers in my department.	2020	31470
Not having all the resources necessary for the children's success. I have children on IEP who display a high need of a para, but it does not seem possible. The space in the classroom does not allow for projects, and causes the children stress. They do not get space to themselves because the room is so small. Often times we would have to stop because students are yelling at each other about getting in each others space, even if a child was only stretching. My mentor tried her best, but she too had limited resources and limited staff.	2020	31537
Poor student attendance...This has made keeping students on track very difficult.	2020	31545

I was not adequately prepared to deal with behavior issues, IEPs, 504s, etc. I don't know what to do when confronted with a student with unique needs.	2021	36145
In order to be an effective, culturally responsive educator you have to have agency in educating yourself on cultural competency and seeking out relationships and resources that will help you be a culturally sound, antiracist teacher. I'm doing that work on my own and did not receive anywhere near the amount of education all teachers need to be effective in a diverse student pop. Students and parents just don't care anymore. Admin doesn't care. Nobody cares about the teachers and that is why Missouri is losing teachers at an alarming rate. Behaviors are out of control. Support is at an all time low. Admin cares most about test scores.	2023	46373
Reaching every student in classes with major behavioral issues in general it makes it extremely difficult to work in small groups or one-on-one when there's students who you can't move away from or take your eyes off.	2023	46466

The basics. How to create and implement an effective lesson plan; strategies for dealing with disruptive behavior; more practice in front of our peers. Less theory/pedagogy; more elements of practicality so we can be successful in the everyday-classroom.	2021	36071
The practicum and student teaching experiences were lackluster on the whole, mostly due to the complexity of the portfolio and key assessment tasks in my program coupled with the disorganization. There was no guidance or structure. Prep programs need to be more organized and they need to simplify and become efficient. The messiness I experienced was so offputting.	2021	36145
Cultural competency, antiracism, and realistic reflection on American education being rooted in white majority cultural norms. The way teachers are taught to teach is not beneficial to a large	2021	36618

percentage of our students who are not white majority culture members. It is unconscionable to send student interns into urban core schools and majority BIPOC student populations without requiring white educators to learn about cultural competency and to become self reflective in their practice so they confront their whiteness and implicit biases. This is part of why we have over reporting of BIPOC students in suspensions, special ed, behavior plans, etc. Brand new white educators don't realize the cultural assimilation they have been taught to demand from their culturally different students and this is DANGEROUS for students of color.

Classroom/teacher organization - I wish we would have learned more about all of the things we need as a teacher.
